PAPER - VI

INTRODUCTION TO INTERNATIONAL LAW

Paper Code - MPOLEC - 6

Credits Allotted: 5

Course Rationale

International law is usually defined as rules that govern the conduct of states in their relations with one another. It traces its origin and development to the contribution of Hugo Grotius. This paper studies the nature, content and the different aspects of International Law pertaining to principles of recognition, jurisdiction, Law of Sea, diplomatic immunities and privileges, forms of obligation and crimes against humanity. The distinction between international law and domestic jurisdiction of nation states needs to be explained and analyzed in order to understand the dynamics of international system and the relationship between nations.

Course Contents

1. The Origin and Development and Sources of International Law
2. Relationship between International Law and Municipal Law
3. Codification and Progressive Development of International Law
4. Diplomatic Immunities and Privileges and Sovereign Immunity
5. Crimes against Humanity and Provisions of International Law
